

MAYUR SCHOOL MANAGEMENT SYSTEM

This is from Mayur Software Solutions, Mayiladuthurai. It is a software development company and does provide various software solutions to customers across world wide.

Our Project Compatible with Mobile and Web. Where we need we will add the Analytics to reduce Management Burdens. It is integrated one It's Customisable as client's needs & updated one with Latest SIN Data's. We cover around 360 degree of Administration that's Split as different Modules.

On Student Module we cover Student Information with Performance Comparison and also cover the Health and Extracurricular activities. On Teacher Module we Cover Teaching & Non-Teaching Staffs Details with Leave, attendance, Payroll & Performance details also. On Parent Module we cover Student Performance, Homework, Uniform details, Holidays, Leave Data, Fees Paid/Payable Details and School-Bus Live tracking with Notification also. For Emergency Leave also possible to apply through this app.

Transport Module Maintain by admin and Driver, Admin Assign the Vehicle with rote to the driver[Including Student list]. From Driver we got Status of the Vehicle Like Fuel, Engine, Tyre, Overall Status. Driver receive Data's of Vehicle Number, Capacity, Rote and Students with stop Details. Through this App we will give Live Track and Notification to the Parents. And we cover the analytics of Vehicle Performance and maintenance and Driver efficiency also. If any Vehicle Problem we will give solution to how to balance that Student with Nearest route busses.

On Health Module we cover Students Hight Weight Fitness level and comparison with the track report submit end of the year.
